

**Dr. George Kozmann (D.Sc.)**

University teacher, president of the Medical Information Technology R+D at the University of Pannonia, also a Master of Science in Electrical Engineering (BME, 1964) C.Sc. (1981) and a doctor of the MTA (Hungarian Academy of Science) (2001). He has been a full-time lecturer at the University of Pannonia since 1998. He is also scientific advisor for the MTA MFA part-time and the head of the scientific division of the Bioengineering Department. He is the member of two international and five Hungarian professional associations and committees.

**Prof. Béla Merkely**

Director of the Heart and Vascular Center of Semmelweis University, Professor and Head of Department at the Department of Cardiology – Cardiology Center, doctor of the MTA (Hungarian Academy of Sciences), Vice President of the European Society of Cardiology.

„WIWE facilitates an unlimited number of ECG recordings and blood-oxygen level monitorings on a daily basis. Medical professionals can obtain important information from the results sent in or presented in person by patients regarding heart rate, temporary irregularities in ECG, arrhythmia, or oxygen deficiency. I recommend WIWE not only for monitoring patients with known heart problems but it can also offer useful extra information for the check-up of health-conscious patients and the prevention of heart and cardiovascular diseases.”

Béla Merkely

# WIWE

The Wiwe uses a worldwide unique intelligent algorithm which evaluates the properties of the ECG wave to calculate if there is a risk of afib-related stroke and sudden cardiac arrest.

MAKE THE CHANGE WITH WIWE  
AND LOOK AFTER THE HEALTH  
OF YOUR HEART.

## 1 MINUTE FOR HEALTH

- 1. Quick Recording** – The ECG is ready within one minute and results can be immediately seen on your smartphone or tablet screen.
- 2. No need to visit the doctor every time** – you save time, money and you know your health condition immediately.
- 3. Results always with you** – you can see and share the ECG record at any time or send it to your doctor.

## FREE APPLICATION

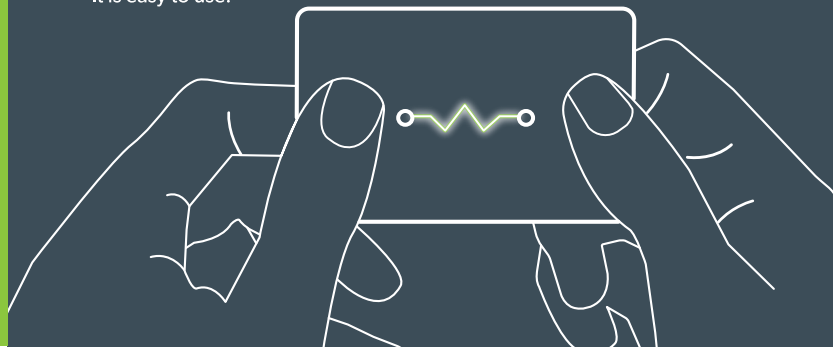

The WIWE can be used with iOS 8.1+ and Android 5.0+ devices which have Bluetooth 4.0.

 GET IT ON THE GOOGLE PLAY

 AVAILABLE ON THE APPSTORU

## WHY IS WIWE BETTER THAN SIMILAR PRODUCTS OUT THERE?

- Immediate and professionally precise record.
- Compact small size, always with you.
- It is easy to use.

## ECG RECORDING

One of the main features of WIWE is ECG recording. Throughout the analysis the outstanding noise filtering helps to get the best possible results. The evaluation calls your attention to any possible abnormalities detected in your ECG wave.

## PULSE OXIMETER (SPO<sub>2</sub>)

Healthy or sick? Blood oxygen level is a very important indicator, which can inflict moderate exhaustion, but there are many severe diseases caused by oxygen insufficiency.

## PEDOMETER FUNCTION

Find your road to a healthier life!  
The use of the pedometer function helps to reduce the risks related to heart diseases.

IF WE KNOW ABOUT IT,  
WE CAN CHANGE IT!
